# BRASS CRAFTING MASTERS WITH VISION AND EXPERTISE

Creative brass crafting is an embodiment of an artist's vision, brought to life by their effort and expertise. Castro Lighting's production takes place in its factories in Portugal, where the best quality lighting solutions are created. The manufacturing process is supervised by experienced professionals who are constantly looking for new and original techniques and approaches. The handling of brass is the history and foundation of Castro Lighting, being its responsibility to inspire and empower future generations to keep the tradition alive. Hand-wrought work can never be entirely replaced by machinery.

# FROM MODERN TO **CLASSIC**, THE IDEAL LIGHTING FOR ANY PROJECT

Throughout the years, while gathering the desirable experience, Castro Lighting took advantage of its proficiency in brass-work production. This allowed the development of more up-to-date, bold, and fresh forms in design. While classic style and influences were the foundation of the brand, a new approach grew within.

The latest collections rejoice with audacity, privilege, and strong statements. The use of noble materials and selected finishes, allied with a youthful and simpler approach to design, turned into a new signature for the brand. A claim of opulence, grandeur, and sophistication.

When it comes to brass work, the brand is famous for its singularity, extraordinary quality, and beauty. The ultimate fusion between the authenticity of traditional Portuguese metal-work techniques, artistic masters, and creative craftsmanship, continuously delivers the next step in innovation. Nowadays, the brand has several bestseller Classic Collections spread across the world and some of them are even part of the most magnificent and renowned interior design projects.

Classic style is inspired by the 18th and 19th century European décor, a timeless trend that displays elegance and lavishness, as well as elaborated silhouettes and exciting detailing. To bring this concept to life and create its own and renewed interpretation of classic luxury, Castro Lighting creates new designs each year, from suspensions to floor lamps, all characterized by the use of noble materials and valued traditional techniques.

Timeless influences are materialized in lighting collections that incorporate an elegant combination of refined materials, such as brass, marble, glass, and crystals. Each crystal is handled with love so that each reflection is never less than perfect. The outcome is true masterpieces with Venetian, Art Deco, and Hollywood glamour styles.
